

# Super jet belt 950

Diamond belt saw for vertical and horizontal cuts  
 The cutting tool is a special plastic belt with sintered diamond segments that need NO grinding or replacing.  
 POLLUTION-FREE, no oil nor grease. The diamond belt is cooled and lubricated exclusively by water. Run by electric AC and DC motors.  
 SMART FEED: the machine is equipped with an automatic electronic "pilot" then adjusts the feed according to the load.  
 Vertical cuts from 1.90 to 3.43 m deep in marble and stone quarries, and up to 4,00 m for soft stones.  
 Horizontal cuts from 1.90 to 3.05 m deep in marble and stone quarries, and up to 3.43 m for soft stones.  
 Advantages of the diamond belt saw over chain saws:

- Cuts even hard and abrasive materials
- Automatic feed control
- Required very little maintenance
- Need only ONE operator
- Low cutting cost
- Pollution-free, No oil No grease

## TECHNICAL DATA

▶ <b>Electric motors</b>	KW 50
▶ <b>Vertical cutting</b>	1.90 - 3.43 m
▶ <b>Horizontal cutting</b>	1.90 - 3.05 m
▶ <b>Output/Carrara marble</b>	4-5mq/hour
▶ <b>Weight + arm and rails</b>	5500 Kg
